Take me to Your Leader: An Exploration of Leadership and Management

What is it about?

Leadership and management are key components in any organisation. This activity based course will explore a wide range of issues relating to effective leadership and management, including; communication, team development, flexibility, integrity and inspiration.

What will I get out of it?

- Develop an understanding of both the theoretical perspectives on leadership and the practical day to day applications of what it means to be a leader in a modern business.
- Identify the qualities of a good leader
- Explores creative strategies to develop successful leadership skills
- Reflect on strengths and weaknesses
